Profile

Frontend development student with hands-on experience in HTML, CSS, JavaScript, Bootstrap, and basic React, gained through academic projects and an internship at Axis Software. Seeking a Frontend Developer Intern role where I can apply my UI development skills, work collaboratively in an Agile team, accept feedback, and continuously improve through iterative development.

Experience

Axis Software   09/2024 – 12/2024

- Worked as part of the Web Development Team, focusing primarily on frontend development using HTML, CSS, Bootstrap and JavaScript to build responsive and user-friendly web interfaces.
- Contributed to styling and layout fixes, implemented interactive elements, and gained exposure to backend integration using PHP.
- I collaborated with team members in a professional environment, strengthening my skills in UI design, code debugging, and cross-browser compatibility.
- Gained exposure to Agile/Scrum workflow, contributing to frontend tasks through iterative development and feedback.

EDUCATION

BSc (Hons) Computing   2022 – 2025 | Kamalpokhari, Kathmandu
Islington College

- London Metropolitan University

+2   2021 – 2022 | Kathmandu, Bagbazar
Kathmandu Model Secondary School

- NEB

Skills

Technical Skills
- Frontend: HTML, CSS, JavaScript, Bootstrap, React(functional components, props, state, basic hooks)
- Tools: Git, VS Code, Figma
- Backend basics: PHP, Django
- Databases: PostgreSQL, MYSQL
- Programming Languages: Java, Python
- Agile / Scrum (basic exposure)

Soft Skills
- Strong communication and teamwork
- Problem-solving and analytical thinking
- Adaptable and quick learner
- Time management and organization

PROJECTS

BookBox - E-commerce Web Application
- Designed and developed a complete e-commerce bookstore application from scratch
- Built responsive and user-friendly UI using Razor Pages, HTML, CSS, and Bootstrap
- Implemented product listing, search functionality, shopping cart, and checkout UI
- Integrated frontend with backend logic using ASP.NET 🔗 Core MVC and Entity Framework
- Implemented user authentication, form validation, and error handling
- Worked with PostgreSQL for data storage and management
- Followed clean code practices and iterative development to improve UI and usability

Data Science Project
- Developed Python scripts to process and analyze datasets
- Performed data validation and cleaning by identifying missing, inconsistent, and incorrect values
- Debugged scripts and improved logic through systematic troubleshooting

- Strengthened analytical thinking and structured problem-solving skills

CERTIFICATES

AWS Academy Graduate - AWS Academy Cloud Foundations

AWS Academy Graduate - AWS Academy Data Engineering

AWS Academy Graduate - AWS Academy Machine Learning Foundations

AWS Academy Graduate - AWS Academy Machine Learning for Natural Language Processing
